Agrifac Exxact sugar beet harvesters News Agrifac introduces new beet harvesters line of 5

Agrifac is a leading producer of agricultural sprayers, sugar beet harvesters and drain-cleaners. As specialist for self-propelled sugar beet harvesters Agrifac introduces the new Exxact line. The Exxact-development is according to the 4e's for growers' concept. By testing all its developments according to the 4e's for growers Agrifac is running ahead of the competition with developments and innovations.

The Agrifac logo is displayed in white on a red square background. The word "agrifac" is written in a lowercase, sans-serif font. The letter "a" has a horizontal line extending to the left, and the letter "f" has a horizontal line extending to the right.The Exxact logo is displayed in white on a red square background. The word "exxact" is written in a lowercase, sans-serif font. The letter "x" is composed of two overlapping "x" shapes, and the letter "a" has a dotted pattern.

Exxact: One name for brilliant simple beet harvesters

Exel-Group has decided to combine the sugarbeet harvesters within the Exel-Group in one name: Agrifac Exxact. This change is done to step forwards as one strong brand to create an even more international character. The new line of Exxact beet harvesters consist of 5 models: AutoTraxx, LightTraxx, OptiTraxx, FlexxTraxx and SixxTraxx. The smallest harvester in the Exxact range has a bunker capacity of 7 tons and the biggest harvester has a bunker capacity of 28 tons.

Agrifac Exxact: five different models

- AutoTraxx, successor of the Automotrice, 6 rows with a 7 tons over-loader bunker
- LightTraxx, successor of the Quatro, 6 rows with 12 tons bunker capacity
- OptiTraxx, successor of the Quatro OptiTraxxPlus, 6 rows, 12 tons bunker capacity
- FlexxTraxx, new in 2013, 6 rows, 4 wheels, 20 tons bunker capacity
- SixxTraxx, successor of the Big Six, 6 rows with 28 tons bunker capacity

About Agrifac Machinery B.V.

Agrifac's vision is to help to feed the growing population of the world. According to this, all Agrifac machines are developed with focus on the "4E for growers" concept: Efficiency, Economy, Ergonomics and Ecology. The "4 E's" secure that Agrifac machines are the best for the operator, the business owner, the supplier and the environment. Agrifac machines retain their value, they are highly efficient and Agrifac innovation is technical trend-setting with lowest costs per hectare as the great benefit.

"For growers" refers to leading and growing companies. By this we mean Agrifac customers, and Agrifac as a company itself.

"For growers" also stands for our roots: the care of crops in a manner as economical as possible with more profit for all participants as result.
